TECHNICAL SKILLS

- C / C++
- Python
- HTML5 & CSS3
- Windows Forms / .NET
- Cyber Security
- App Development
- AI / ML Basics
- Git & GitHub

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Self-Learning
- Team Collaboration

LANGUAGES

- Urdu (Native)
- Punjabi (Native) • English (Proficient)

Abdul Hannan Anwar

Final-year BS Computer Science student at MNS University of Engineering & Technology, Multan. Proficient in C/C++, Python, web development, desktop application development, and cybersecurity. Certified via Coursera and ICT Club MNS UET Multan. Seeking an entry-level role to apply my technical skills and grow professionally.

EDUCATION

BS Computer Science 2023 – 2027

MNS University of Engineering & Technology, Multan

Relevant coursework: Data Structures & Algorithms, OOP, Artificial Intelligence, Web Technologies, DBMS, Software Engineering

Intermediate — ICS Completed

Ibn-e-Seena Boys H.S.S., Dunyapur

Matriculation (SSC) Completed

Dunyapur Public School, Dunyapur

PROJECTS

Personal Portfolio Website ([view my Portfolio](#))

HTML5 • CSS3 • JavaScript

Designed a fully responsive portfolio site built using Flexbox grid modules and targeted media queries. Clean presentation showcasing all personal academic projects and active credentials.

Deepfake News Detection System (Final Year Project) (In progress)

2026 – 2027

Python • Machine Learning • NLP • Deep Learning

Developed a system to identify AI-generated and manipulated articles using deep learning and NLP models. Analyzed linguistic patterns, source integrity, and content authenticity signals to catch misinformation.

Windows Forms Application (.NET)

2024

C# • .NET Framework • Visual Studio

Built a clean desktop application with standard UI controls and full CRUD database functionality. Applied robust object-oriented patterns and event-driven programming seamlessly.

Python Automation Scripts

2023 – 2024

Python • Academic + Coursera

Developed efficient CLI execution tools, automated system file utility handlers, and mini-utilities focused on core clean-code parameters.

C++ Data Structures Library

2023

C++ • University Coursework

Implemented dynamic linear lists, search stacks, algorithmic binary trees, and various sorting methodologies fully from scratch.

CERTIFICATIONS

Crash Course on Python — Google / Coursera
